PERSONAL PROJECTS

Design and Simulation of Microstrip Patch Antenna.
- Microstrip patch antenna of dimensions 47.89mm x 47.89mm x 3.2mm is Designed and Simulated using Ansys HFSS Software. Designed antenna operates at four different modes, achieved by using two PIN diodes. It has the capability to reconfigure up to eight different bands ranging from 2.60 to 3.8GHz, thus suitable for quite number of wireless applications including LTE and WiMAX.

Smart Parking System.
- Smart Parking is an Internet of Things (IoT) based application used to detect the available parking slots. This app uses ultra- sonic sensor to detect the presence of a vehicle.
